

Dr. Quiz Application

<Introduction>

Dr. Quiz is a quiz creation application. The design is modeled after coaching a soccer club. (As a developer, I love football.) You can create your own quiz questions and answer them as if you were playing a game. I think it's good to use this application for play, and I think it can be used enough for studying for entrance exams.

Dr. Quiz is an application that uses Microsoft's product Excel, so it is a prerequisite that Excel is installed on your computer in order to use it.
